CLARENCE GRIER, LIVE WIRE, KEEPS FOURTH BOOSTERS BUSY

The program for the Fourth is shaping up nicely. All committees are hard at work perfecting details of their sections of the entertainment, which no doubt will eclipse everything that has been seen in Tonopah. The executive committee is injecting vast quantities of pepper and ginger into the preparations and the magnetic direction of Harry Grier is bringing results. Advice from outside points indicate that hundreds of visitors will come from Manhattan, Minn. Round Mountain, Shoshone Valley, Luning and Sodaville. These citizens have been reached through personal solicitation. Scouts sent out last week to ascertain the sentiment all agree that the attendance will be ahead of the fondest expectation. Chairman Grier is devoting about twenty hours a day to details. He is always at his office or helping the chairmen with fresh ideas, pointing out copy on a typewriter and writing letters. He has no assistants in taking care of office work, but he succeeds in dispatching business with a celerity born of his long railroad experience and knowledge of organized effort. He is the soul of efficiency, a model of courtesy and, for the first time, there is not the slightest petty jealousy among the hundreds of committee workers. They appear imbued with the energy of the master mind, which knows how to turn a grinch into a booster and bring smiles to the faces of those who allow themselves to be worried with the infinite small cares of assembling forces, and bringing about co-operation. Grier is a bundle of animation, radiant with smiles, receptive for all complaints and fertile with expedients for maintaining the carnival spirit and injecting push into the indifferent.

Under the circumstances it is not strange that Luning and Sodaville should be among the first to apply for recognition and it would not be surprising if the executive committee resolved to recognize the enthusiasm of these towns by constructing a couple of floats to advertise their resources in the great parade. The toughest camp has at least 250 men employed at the mine and mill and since most of these men went from Tonopah, they are all anxious to spend a day at home in the old burg. The same may be said of Luning. The boys down there are pining for a chance to enjoy themselves in a rational manner and the leading citizens say the delegation from that point will empty the town. It requires very little urging, as on the outside it is generally understood that the Tonopah Fourth is a sort of homecoming to which all sons and daughters will be welcomed with an abundance of good things and infinite entertainment for all. The fact that special provision has been made for the ladies and children is an impressive feature. Every want of the young folks will be anticipated. They will revel in ice cream, lemonade and balloons, and should it happen that any of their stomachs should rebel at the unusual stock of goodies a nice pleasant-faced doctor will relieve them of their troubles.

Plans for decorating stores and residences are under way and the ladies are showing great ingenuity in designing the work. Johnny McCarty, the great welterweight of the Pacific coast, arrived from San Francisco this morning and looks in great shape for his coming battle with Antonio La Grava on July 1st. Johnny says he is glad to be back among his many friends in Tonopah once more and states he will surely condition himself carefully for this battle, as La Grava is a fast, dangerous man, with lots of experience, and he realizes to win over him will require the best preparation. Johnny is making arrangements to train at the local gymnasium and invites all lovers of the battle game to visit his quarters any afternoon at 3 p. m.

Chairman Callahan of the Mardi Gras committee, had a long session with his assistants this afternoon, mapping out the details of the big

parade to be given at 8 p. m. on the night of the Fourth, and some new and novel stunts can be looked for from this feature of the celebration. Plenty of red fire will be provided and all owners of automobiles are urged to decorate their cars and take part in this event. In order to make as large a showing as possible, a magnificent float to accommodate the queen and her assistants and King Rex is under way, with many new and intricate electrical effects. Costumes will be furnished at a nominal rental. Many prizes will be awarded by the committee in charge.

TURKS DEMAND A NEW TARIFF

PROTECTION FOR HOME INDUSTRIES AND MAKE COUNTRY SELF-SUPPORTING

(By Associated Press.)
CONSTANTINOPLE, June 22.—Turkey is about to adopt its first tariff law unhampered by foreign interference. Up to the outbreak of the war the government's hand were bound by obligations undertaken in connection with the public debt, so that it was not able to change its tariff without the consent of the great powers, which found it to their interest to keep the Turkish duties as low as possible. For many years they kept them at eight per cent, ad valorem and lower. Turkish statesmen often pointed out that the duties were too low to yield sufficient revenue, and the government long demanded their consent for an increase. Germany gave its consent about fifteen years ago, but England and France refused. In several years ago, when they agreed to an increase to eleven per cent. Soon after Turkey joined the central powers and entered the war, the government denounced the so-called "capitulations," or arrangements which gave the foreign powers special rights in Turkey, including their control over the tariff system.

After waiting more than a year the government has now brought in a bill for revising the tariff. It is, for most articles, a very moderate measure, fully two-thirds of the duties ranging between only 10 and 15 per cent. Most other articles range between 20 and 50 per cent, and a few as high as 100 per cent. These highest duties are intended for the protection of agriculture and some manufactured goods. There is a small free list, which includes school books, round and other educational supplies. Agricultural machinery is also put on the free list in the interest of the farmers.

ENGLISH SHIPPING PAYS HUGE PROFITS IN YEAR

(By Associated Press.)
LONDON, June 22.—The Chancellor of the Exchequer will set a very large sum from shipping companies and certain industrial concerns on account of excess profits in the near future. The balance sheets already published show increases in profits ranging in some instances up to 300 per cent, while some of the shipping companies' profits exceed their share capital.

In several instances provision has been made for the excess profit tax and many companies could have paid very much larger dividends but the bulk of the increased profits have been wisely placed in reserve.

Points From American Note to Mexico

"United States Cannot Recede"—Lansing

"If the de facto government continues to ignore this obligation (of protecting American lives and property) and carries out its threat to defend its territory by an appeal to arms against the American troops, the gravest consequences will follow."
"While this government would deeply regret such a result, it cannot recede from its settled determination to maintain its national rights and to perform its full duty in preventing further invasions of the territory of the United States and in removing the peril which Americans along the international boundary have borne so long with patience and forbearance."

"I am reluctant to be forced to the conclusion which might be drawn from the circumstances that the de facto government, in spite of the crimes committed and the sinister designs of Villa and his followers, did not and does not now intend or desire that these outlaws should be captured, destroyed or dispersed by American troops or at the request of this government, by Mexican troops."

"If a denial is made that this government has had ulterior and improper motives in its diplomatic representations or has contemplated the activities of American sympathizers and the American press opposed to the de facto government, I am glad most emphatically to deny it."

"As I am informed, while Villa and his band were slowly moving toward the American frontier in the neighborhood of Columbus, N. M., not a single Mexican soldier was seen in his vicinity. Yet the Mexican authorities were fully cognizant of his movements, for on March 6, as General Gaviro publicly announced, he advised the American military authorities of the outlaws' approach to the border, so that they might be prepared to prevent him from crossing the boundary. Unhesitating hostility of subordinate military commanders of the de facto government toward American troops engaged in pursuit of Villa bands and efforts of the de facto government to compel their withdrawal constitute a menace to the safety of the troops and to the peace of the border."

MEXICAN ARMY AND NAVY AS THEY APPEAR IN NORMAL TIMES

The full strength of what was known as the regular Mexican army is 107 generals, 6220 officers and 16,352 men.
There are six gunboats of from 1000 to 1200 tons, armed with rapid-firing four-inch guns and with rapid-firing six-pounders; a transport of 1000 tons, armed with 57 mm. guns; another transport of 900 tons; two training ships, one of steam, 1200 tons, armed with 12 cm. and 57 mm., and the other a sailing ship of 700 tons. There are also several small revenue cutters watching the coast on both oceans; a naval school, a navy yard, a floating dock at Vera Cruz, a depot at Salina Cruz and a shipyard at Guaymas. The military school is at Chapultepec.

RUSHING PREPAREDNESS IN THE MIDDLE WEST

(By Associated Press.)
CHICAGO, June 22.—Instructions were issued today by the central department of the army to expedite mustering in Kansas, Missouri and Nebraska. This is taken to mean that these will be the first organizations to enter the federal service.

BOB STEWART ALL RIGHT

Bob Stewart is all right and back again enjoying himself after giving his friends a fight that caused Bob Goran and Billy Douglas to hasten to Sodaville. They found that Bob had been suffering from a severe attack of rheumatism due to riding out in a blinding cold wind and had fully recovered. The report that he had been stricken with paralysis was erroneous. Bob says he will be in Tonopah to celebrate the coming 4th of July.

BIG TIME TONIGHT WITH THE ZUM ZUM MEMBERS

Between the name of the club and the Yama Yama costumes there will be no confusion this evening, as they both will be at the Airdome for the annual dance of the club. This is an exclusive organization which always gives a good time to the friends who attend their soirees.

AMUSEMENTS

BUTLER THEATER

The program at the Butler this evening will consist of a Mutual masterpiece in which David Horsley presents the beautiful motion picture star, Margaret Gibson, and a specially engaged cast of artists in a drama entitled "The Soul's Cycle," founded on the theme of reincarnation.

The earlier scenes in this photoplay picture the story of Theron, a Grecian senator, who sells his soul to the evil of hatred and revenge when beautiful young Nadia scorns his advances and gives her heart to the poet Lucian. When the young couple elope the senator and his men overtake them and hurl them into a burning crater. For this sin his soul is doomed to enter the body of a lion and to roam the earth until he saves youth and love as he killed them. Centuries later the daughter of an American millionaire and a Wall Street broker fall in love and are wed. The husband, a famous hunter, has brought home an African lion, which he has installed in his mansion. Over the beast the wife exerts a remarkable influence. During a critical period in her husband's career, a message comes from the past, speaking through the lion, and she is able to give her husband timely warning and save him from financial ruin. A business rival, who comes to the house to gloat over the downfall of her husband, is chastised. The husband returns and the lion decides upon a
